**Weekly Report - Week Ending April 15, 2024 TABS - Owen, Evan, Mitch, Connor**

Accomplishments This Week:

UI Development Progress:
-Continued refining the user interface to enhance aesthetics and user experience. This week we ended up completely redoing a lot of our UI, since we realized we couldn't put as much focus into the text parsing aspect.
-Resolved remaining issues with the camera functionality, there was some broken parts with saving photos but now, it works.
-Implemented group creation and management features, allowing users to easily organize and split expenses with friends. Evan put a lot of time into this and it looks great.
-Integrated Venmo for seamless payment transactions within the app. Not completely functional but works to bring you to venmo

Plans for Next Week:
-UI Enhancement and Feature Implementation:
-Continue iterating on UI improvements, focusing on enhancing user interactions and visual appeal across all application screens.
-Explore additional features to further streamline expense tracking and management for users.

-Turn focus on presentation skills and practicing what we are going to say for the poster presentation session.

Key Focus Areas:
-Prioritize stabilizing and finalizing some of the pages that have problems so we have a smooth app even without the parsing part.
-Prep for final stuff
